

# Coloured acrylic

Solutions that endure

**INDUFLEX**

# Endless possibilities

A wealth of colours from delicate pastel to neon, from earth colours to loud colours, gold, silver, mother-of-pearl, tinsel and glitter.

Different finishes including matt, shiny, mirror, frosted, sateen, metallic or maybe a surface with a specific structure. The possibilities are almost endless, when it comes to acrylic.

You can acquire acrylic:

- in sheets up to 2030 x 3050 mm, 2 - 160 mm thickness.
- with a light transmission of 0 - 92 %.
- which can be laser cut, glued, bended, engraved and digital printed.

Are you looking for a specific colour? Feel free to ask.

# Standard range

The colours on the following pages are our standard range of acrylic sheets in stock in 3 mm thickness. You can also order sheets in other thicknesses. If you have specific wishes, you are welcome to contact us.
